

CUTTING EDGE  
RESEARCH  
IN HOMEOPATHY

ROME 2015

## 2<sup>ND</sup> HRI International Homeopathy Research Conference

### Filmed Presentations

Rome, 5-7 June 2015

HOMEOPATHY  
RESEARCH INSTITUTE

## Filmed presentations

42 presentations are available to download to your computer or stream online. For a small fee to help support the work of HRI, you can have unlimited permanent access to each film you purchase.

Choose single talks, use the dropdown menu to choose themed playlists, or select 'HRI Rome 2015 complete' for the full set. With individual talks lasting from 5 to 30 minutes, you can listen to the best homeopathy researchers around the world at your own pace and convenience.

Watching all films will provide 10.5 hours of learning time, so check with your registering organisation for validity as a CPD activity.

For information about special access for those running University or College courses, please contact us via [communications@hri-research.org](mailto:communications@hri-research.org).

Playlists (for full list of talks see below)	Number of talks	Approximate duration	Cost
HRI Rome 2015 complete (playlists 1-8)	42	10hr 30 min	£50
1 International homeopathy research organisations	3	20 mins	Free
2 Homeopathy research – the state of play and way forward	3	1hr 40 min	£5
3 Clinical research & safety	6	1hr 30 min	£10
4 Clinical research – individualised & non-individualised homeopathy	6	1hr 30 min	£10
5 Mechanism of action & lab-based research	8	2hr 40 min	£12
6 Lab-based research – animal models	4	1hr	£6
7 Provings	5	1hr 15 min	£8
8 Poster talks	7	50 min	£6
Individual films – keynote presentation	1	30 min	£3
Individual films – oral presentation	1	15 min	£2
Individual films – poster talk	1	5 min	£1

## HRI Rome 2015 complete

In the following playlists, keynote speakers are indicated in bold.

This option provides all 44 available conference films (i.e. playlists 1-8 combined). Any talks included in the conference programme but not listed here are unavailable, either because the work presented has not yet been published or due to last minute programme changes during the event.

## Playlist 1 – International homeopathy research organisations

HRI	Free
GIRI	Free
WissHom	Free

## Playlist 2 – Homeopathy research – the state of play and way forward

<b>Prof Paolo Bellavite</b> , Italy. Basic research on homeopathic principles	£3
<b>Dr Klaus von Ammon</b> , Switzerland. Contribution of clinical observations to the discovery of mode of action of homeopathic medicines	£3
<b>Dr Robert Mathie</b> , UK. Systematic review and meta-analysis of randomised, placebo-controlled, trials of individualised homeopathic treatment	Free

## Playlist 3 – Clinical research & safety

<b>Prof Jennifer Jacobs</b> , USA. Homeopathic treatment of respiratory illnesses in children: Results from two randomized trials	£3
Dr Rosaria Ferreri, Italy. The clinical experience in the centre of integrated medicine - Pitigliano hospital	£2
Dr Peter Fisher, UK. Homeopathy and public health: Multimorbidity, polypharmacy, antimicrobial resistance, adverse drug reactions and homeopathy	Free
Rachel Roberts, UK. How safe is homeopathy? An analysis of the Posadzki et al. 2012 safety paper and fresh review of the same literature	£2
Dr Elio Rossi, Italy. Homeopathy and complementary medicine for cancer patients: Results of a survey on integrative oncology centres in Europe	£2
Dr Lex Rutten, Netherlands. Improving cough treatment with a mixed methods approach	£2

## Playlist 4 – Clinical research

### Individualised homeopathy

David Brulé, Canada. Feasibility and clinical results of a pilot trial of individualized homeopathic treatment of fatigue in children receiving chemotherapy	£2
Teh Chye Phing, Malaysia. A retrospective cohort study on the efficacy of homeopathy compared to homeopathy plus conventional medicine in the treatment of hypertension	£2
Pawan Pareek, India. Homeopathy in iatrogenic disorders	£2
Dr Francesca Talarico, Italy. Single-blind study assessing the individualized homeopathic treatment of cancer patients versus placebo	£2

### Non-individualised homeopathy

Petra Klement, Germany. Results of an international, randomised, controlled clinical trial with a complex homeopathic medication in feverish upper respiratory tract infections	£2
Dr Rajesh Shah, India. Clinical trial for evaluation of a HIV Nosode in the treatment of Human Immunodeficiency Virus (HIV) infected participants	£2

## Playlist 5 – Mechanism of action & lab-based research

### Mechanism of action

Dr Steven Cartwright, UK. Solvatochromic dyes detect the presence of homeopathic potencies	Free
Dr Alexander Tournier, France. Physicochemical investigations of homeopathic potencies: a systematic review of the literature	£2

### Lab-based research

<b>Prof Lucietta Betti</b> (represented by Dr Giovanni Dinelli), Italy. Different approaches in homeopathic basic research: plant-based bioassays and evaporation-induced crystallization	£3
Dr Gustavo Aguilar-Velazquez, Mexico. Evaluation of cytotoxic and apoptotic effects of several homeopathic dilutions of Echinacea angustifolia on human breast, cervical and prostate cancer cells	£2
Paul Doesburg, Netherlands. Replication of specific effects of a Stannum metallicum 30x preparation in a cress seedling/biocrystallization test system	£2
Dr Christian Endler, Austria. Repetitions of fundamental research models for homeopathically prepared dilutions beyond 10-23: a bibliometric study	£2
Dr Debora Olivos, Italy. Effects of homeopathic Arnica montana on gene expression of human macrophages-results of quantitative real-time PCR	£2
Prof Dr Thomas Ostermann, Germany. Investigation of effects of highly diluted substances in periodontal inflammation using flow cytometry analysis – a pilot study	£2

## Playlist 6 – Lab-based research – animal models

<b>Prof Dra Silvana Marques de Araújo</b> , Brazil. Exploring the model of murine infection by <i>Trypanosoma cruzi</i> to investigate treatment with highly diluted drugs: the influence of <i>Lycopodium clavatum</i> or Phosphorus in Wistar rats	£3
Dr Anna Camps, Spain. Microimmunotherapeutic administration of cytokines improve the clinical symptoms in EAE, an animal model of Multiple Sclerosis	£2
Dr Ganesh Lakshmanan, India. Effect of ultra-high dilutions of <i>Lycopodium clavatum</i> on reproductive and sexual functions in aged male wistar albino rats	£2
Dr Thayna Neves Cardoso, Brazil. Carbo animalis and immune response to Ehrlich ascites tumor in mice: an experimental model	£2

## Playlist 7 – Provings

Dr Jean Duckworth, UK. The role of the research ethics committee in providing ethical approval for provings. The findings from a pilot study	£2
Alastair Gray, Australia. Proving Ethics: At the coalface	£2
Dr Jean Pierre Jansen, Netherlands. Homeopathic Pathogenetic Trials (provings) do not always match homeopathic clinical practice. Possible answers from the qualitative research tradition	£2
Prof Ashley Ross, South Africa. The translation of prover journals to standard homoeopathic formats: accountability and traceability of proving data	£2
Dr Peter Smith, Germany. A group of recent provings in which the new HPCUS Provings Guidelines were applied: comments on the methodology	£2

## Playlist 8 – Poster talks

Dr Kimberlee Blyden-Taylor, Canada. Effectiveness of the concomitant use of psychotropic pharmaceuticals and individualized homeopathic treatment: A Delphi study	£1
Philippa Fibert, UK. A protocol for a randomised controlled trial of the effectiveness of treatment by homeopaths for ADHD	£1
Dr Lefteris Tapakis, Greece. Statistical analysis of 156 cases of depression treated with classical homeopathy	£1
Christa Raak, Germany. <i>Hypericum perforatum</i> to improve pain outcome after monosegmental spinal stenosis surgery – Study protocol	£1
Alison Fixsen, UK. Homeopathic treatment for otitis media in children: the case for pragmatic trials	£1
Dr Helene Renoux, France. Common points, peculiarities and complementarity of two homeopathic provings methodologies: trituration proving versus long term Hahnemannian proving	£1
Dr Silvio Leite Monteiro da Silva, Brazil. Neuro-immuno-endocrine modulation in a perinatal model: cytokine production in mice treated by <i>Zincum metallicum</i>	£1
